How Long is Larry the Lizard?	Problems involving measures (length)	6
Larry the Lizard 2	Problems involving measures (length)	7
Meet the Lizard Family	Problems involving measures (length)	8
Larry's Length Graph	Problems involving measures (length)	9
Lizard Trails 1	Problems involving measures (length)	10
Lizard Trails 2	Problems involving measures (length)	11
Larry's Long Leaves	Problems involving measures (length)	12
Area: Teachers' Notes		13
Clowning Around	Problems involving measures (area)	14
Make a Clown	Properties of 2D shapes	15
Finding a Home 1	Properties of 2D shapes	16
Finding a Home 2	Properties of 2D shapes	17
New Clothes for Ziggy	Problems involving measures (area)	18
Ziggy's Shapes	Problems involving measures (area)	19
Ziggy's Tricks	Problems involving measures (area)	20
Volume and Capacity: Teachers' Notes		21
Modeling Clay Puzzles	Properties of 3D shapes	22
Sammy's Sand Castles	Problems involving measures (capacity)	23
Sammy's Bath Time	Problems involving measures (capacity)	24
Sammy's Super Lunch	Problems involving measures (capacity)	25
Mass: Teachers' Notes		26
Balancing Bertie	Problems involving measures (mass)	27
Bertie's Bowling	Problems involving measures (mass)	28
Which is Heaviest?	Problems involving measures (mass)	29
Marble Magic	Problems involving measures (mass)	30
Fruit Time	Problems involving measures (mass)	31
Time: Teachers' Notes		32
My Day	Problems involving measures (time)	33
My Shadow	Problems involving measures (time)	34
What I Like To Do	Problems involving measures (time)	35
Birthday Graph	Problems involving measures (time)	36
Beat The Time	Problems involving measures (time)	37
Magic Minute	Problems involving measures (time)	38
Come in Spinner	Problems involving measures (time)	39

How Long is Larry the Lizard?

You will need:

Some bottle tops, some counters and a pencil.

Here's what to do:

Find out how many bottle tops it takes to measure Larry, starting at his head. Use the picture on the next page.

1. What is your guess?

Larry is bottle tops long.

2. Now try measuring Larry with counters. What is your guess?

It takes..... counters to measure Larry.

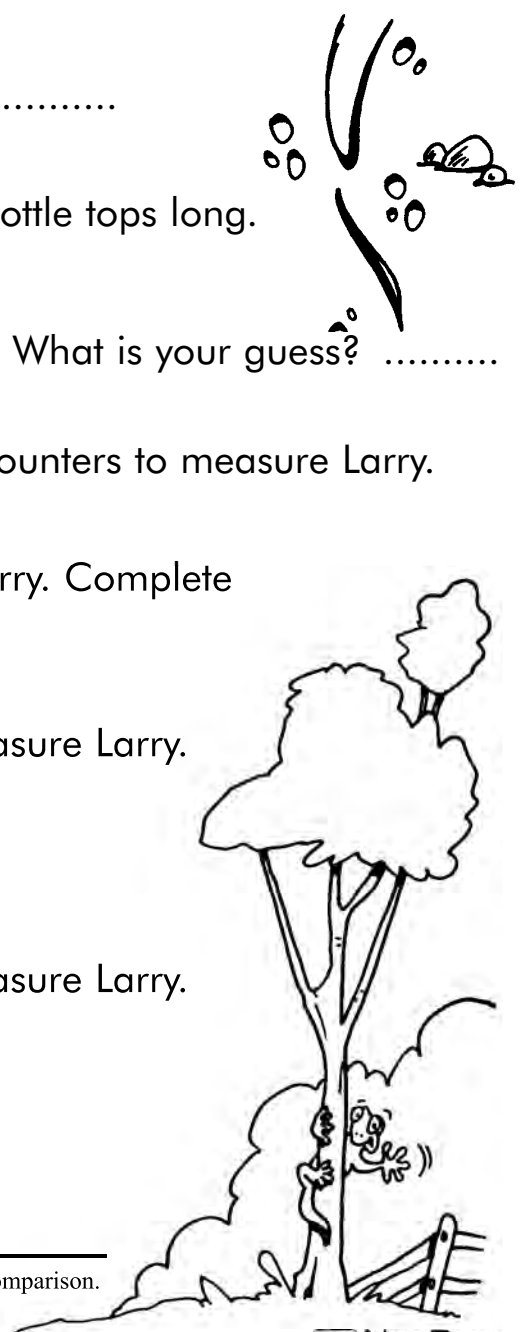

Choose two other objects and measure Larry. Complete these sentences.

3. I used to measure Larry.

I needed

4. I used to measure Larry.

I needed

*Measurement: Length: Carry out activities requiring indirect arbitrary comparison.

Meet the Lizard Family

Leo Lizard

Lucy Lizard

Loretta Lizard

Lenny Lizard

Look at the lizards and answer these:

1. Who is the longest lizard?
2. Who is the shortest lizard?
3. Lenny is than Loretta.
4. Lucy is than Leo.

Larry's Last Look:

Color the shortest lizard dark brown.
Color the second shortest lizard grey.
Color the second longest lizard light brown.
Color the other lizard black.

*Measurement: Length: Carry out directed activities such as sorting and seriating according to length.
